### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

A review of applicants' arguments in amendment filed on November 25, 2003 and a review of the instant amended claims has convinced the examiner that the claims are allowable over the applied prior art of record. The prior art fails to teach or suggest that the second side of the release liner in contact with the first side of the adhesive, containing pigment, has a release value that is less than the first side of the liner that is contact with the second side of the adhesive when the article is in a roll form and has been exposed to E-Beam radiation, and that the release coating material has sufficiently tightly crosslinked network, levels of polar functionalities and reactive groups. Also, no evidentiary support could be provided to support the position that the instant claimed invention would have been obvious to one having ordinary skill in the art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
